Dear Friends, Partners, and Supporters,

2022 was a year of more change and growth for River Bridge Regional Center (RBRC) and Mtn West SANE Alliance (MWSA). It is hard to believe that it has been over 15 years for RBRC and 5 years for MWSA. Looking back on where we have come from, I am humbled by all the support that has gotten us here today.

We are now a stable staff of nine employees, and we are so lucky to have the dedication and commitment of such an amazing team. In 2022, we added Delaine Gilmore, Family Advocate and in 2023, Tina Thompson, Forensic Interviewer to our team. Our existing staff grew confident in their roles and expanded services to ensure a seamless operation. We went from operating in crisis through 2020 and 2021 to operating with stability and purpose by the end of 2022. It took a lot of thought and teamwork, and I am more than proud of the work we have done to serve children and families.

This past year new updated standards from the National Children's Alliance were released. To maintain our accredited status, we must adjust and add services in order to meet these new standards. In 2022, our team engaged in intensive mental health engagement and diversity equity and inclusion training with the goal of meeting these standards and having policy and procedure revised. Change is hard, but our team has adjusted well. Communication and a team approach with our greater multidisciplinary team is essential to the success of these services.

We are proud of the advancements RBRC and MWSA have made over this past year. We look forward to the next phase of our growth with the hope of adding more prevention programs to our services in 2023.

Located in Glenwood Springs, Colorado, **River Bridge Regional Center** has been providing a variety of services to communities throughout Garfield, Pitkin, Rio Blanco, and Eagle Counties since 2007. As a nationally accredited Child Advocacy Center, we engage the power of a multidisciplinary team in assessing, investigating, treating, and striving to prevent cases of child abuse. We place the child's needs first. Within our warm child-friendly environment, caring professionals provide the tools that children and their non-offending family members need in order to find hope and healing.

Mountain West SANE Alliance

River Bridge also provides services to victims beyond child sexual abuse. RBRC operates **Mountain West SANE Alliance** (Sexual Assault Nurse Examiner) program meeting the needs of adult and adolescent assault victims by providing trauma informed, compassionate, and culturally sensitive and comprehensive forensic evaluation and treatment by trained, professional medical providers.
